

## FC-BB-2 Interim Conference Call Minutes 1-08-03

1. Steve Wilson opened the conference call at 2:03 PDT on Wednesday, January 8, 2003.

### 2. Scheduled New Business:

The only agenda item was to discuss open action items in comment resolution.

The security overview text is almost complete. B\_Port authentication shall be defined in FC-SP instead of FC-BB-2.

Another open issue is the initialization of ATM and SONET links. Bret has proposed that the initialization process for FC-BB-2\_IP be applicable for FC-BB\_ATM and FC-BB\_SONET. The group agreed to accept the resolution of CNT-20.

Murali will send out revision 5.8 next week and this version will be reviewed for final approval in New Port Beach, CA at the face-to-face.

The conference call adjourned at 2:30 PDT.
