

Minutes FC-BB-3 6/8/04, Chicago IL.

Steve Wilson kicked off the meeting and assumed the role of secretary as well as facilitator.

Chris Janz provided a brief summary of the new content for (04-215v1) FC-BB-3. This included GFPT, reduction of states, revised PING/PING_ACK definitions, support for VC's, time constants, ELP/xLOGI per FC-SP and ELSs including FDISC.

Chris reviewed the text for GFPT handling of virtual channels and use of 8B10B codes. The issue of BB Credit Recovery on an ISL was discussed. Currently there is no plan to bring in BB credit recovery for VCs.

Dave Peterson walked us through some comments on the current FC-BB-2 document to be included in the next FC-BB-3 rev.

Steve Wilson again notified the group of remaining work items for FC-BB-3. FC-BB-3 still shooting for a Dec. 04 letter ballot.

Action: Chris to provide the first rev of FC-BB-3 for the August meeting.

Action: Steve Wilson to post BB-3 work items to the reflector again.

Action: Dave Peterson to bring in details for Point to Multi-Point during August meeting.
