Mr. Robert Snively
Chair, INCITS Technical Committee T11
Brocade, Inc.
1745 Technology Drive
San Jose, CA 95110

Dear Mr. Snively:

Re: Licensing Statement for T11 Standards

As you are likely aware, LSI Corporation is participating in the development of T11 Fibre Channel Interface Standards. If any of the proposed T11 standards are adopted by INCITS (or ANSI) as standards, and if any LSI owned patents or patent applications contain claims that are required for practicing those standards, LSI is prepared to offer a license to such patents and patent applications to the extent required to implement a T11 standard. Such a patent license would be non-exclusive and offered under reasonable, non-discriminatory (RAND) terms and conditions, subject to receipt by LSI of a reciprocal license from the licensee.

Any party wanting to request a license should submit that request in writing to me at the address provided above.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Waskiewicz".

Warren K. Waskiewicz
Director, IP Licensing
