Dear Barbara,

Please find attached the draft of "Fibre Channel – Framing and Signaling - 3 (FC-FS-3)" revision 1.10. The standard is being forwarded for second public review and for further processing.

During processing by INCITS following the first public review, it was deemed that the FC-FS-3 document required the clarification as documented in T11/10-221v1. The incorporation of this clarification resulted in a substantive change to the FC-FS-3 document. Therefore INCITS recommended that the modified FC-FS-3 document go through a second public review. In addition, the clarification was approved by T11 letter ballot concluding on July 29, 2010, with 34 favoring, none opposed, 3 abstaining, and none not voting. The letter ballot document and the letter ballot results are included for your reference.

At the T11 plenary meeting in Chicago, IL on August 5, 2010, Bob Nixon (Emulex) moved and Roger Hathorn (IBM) seconded to accept T11/10-221v1 as approved clarifications to Revision 1.00 FC-FS-3 and to forward Revision 1.10 of FC-FS-3 (T11/10-010v2), Project 1861-D, to INCITS for further processing including second public review. INCITS RD-2 requires approval of this question in accord with the 2/3 rule, as determined by roll call. The motion met the 2/3 rule, with 31 Favoring, none Opposing, none Abstaining, and six Not Voting.

These actions are documented in the minutes of the August 2010 T11 plenary meeting, T11/10-390v0, subclause 11.2.2. This item was posted on the draft agenda for the August 2010 meeting, T11/10-323v1.

Could you please therefore take the appropriate steps for performing second public review and further processing of the standard?

Thank you for your assistance in this matter.

Regards,

Steven Wilson
Chairman, TC T11
